SCIENCE OF TODAY
HOPE FOR TOMORROW

Best of ASTRO-India Annual Conference

29th & 30th July, 2023 | Ritz-Carlton, Pune, India

Dear Colleague,

In an effort to share the most important scientific studies related to radiation oncology throughout the world, ASTRO has created a program that allows organizations to license the Best of ASTRO content and hold an “officially licensed” meeting in their own country. The Best of ASTRO content represents the top-rated abstracts from the ASTRO Annual Meeting. The abstracts selected for the Best of ASTRO are hand-picked by a selection committee from thousands of abstracts submitted to the Annual Meeting. By holding a Best of ASTRO meeting, we are able to offer you access to these top abstracts and foster discussion and networking at a local level. Best of ASTRO-India will be hosted by Ruby Hall Clinic, Pune on 29th and 30th July, 2023 at the Ritz Carlton Hotel.

Our scientific committee has curated the one and a half day program with the best of the abstracts to suit Indian perspective. Delegates will not only witness best the presentations but also interact with senior faculty from all over the country to thoroughly understand and discuss about this path breaking research done world over.

On behalf of organizing committee I invite you to attend this academic get together and actively participate in the scientific discussion.
